## Professional Experience

### Artificial Intelligence Internship

Sept 2025 – Oct 2025

#### IBM

- Built a Sentiment Analysis Model using Naive Bayes classifier to analyze e-commerce product review data.
- Collaborated with team members using Git-based workflows in a remote environment.

## Projects

### Rail Compass: Smart Train Recommender

*React, Node.js, Express, MongoDB, Vite, CSS*

- Built a personalized railway recommendation platform that ranks trains based on duration, budget, comfort, and reliability.
- Developed a high-performance frontend using React 19 and Vite with a modern, responsive Glassmorphism UI.
- Created a RESTful Node.js/Express backend with MongoDB, using custom scripts to ingest large-scale real-world datasets from Kaggle.

### CareerIQ: AI Based Career Recommendation System

*Node.js, Express.js, MongoDB, React.js, REST APIs*

- Built a full-stack MERN application that recommends careers using psychometric and skill-based analysis.
- Implemented user authentication, REST APIs, and backend logic for data processing and recommendations.
- Designed a scalable database schema using MongoDB to handle user profiles and career data efficiently.

### Sentiment Analysis of E-commerce Product Reviews using Naive Bayes

*Python, Scikit-learn, NLP, TF-IDF*

- Built an NLP pipeline with full preprocessing including tokenization, stemming, and stopword removal.
- Applied TF-IDF vectorization and trained a Naive Bayes classifier for review sentiment classification.
- Achieved approximately 80% accuracy on an Amazon reviews dataset.

## Technical Skills

- **Languages:** Java, JavaScript, C, HTML, CSS, SQL
- **Frameworks & Libraries:** React.js, Next.js, Express.js
- **Technologies:** MERN Stack, MongoDB, Node.js, REST APIs, CRUD, JWT Authentication
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook, Adobe Creative Suite, Canva, CapCut

## Certifications & Achievements

- AWS Academy Cloud Foundations — certified in core cloud computing concepts and AWS services.
- AWS Academy Machine Learning Techniques — certified in foundational ML concepts and AWS ML tools.
- MS Excel Beginners to Advanced Course — certified in spreadsheet analysis and data management.
- Solved 100+ DSA problems across LeetCode and CodeChef, focusing on algorithms and data structures.

## Education

### ABES Engineering College, Ghaziabad, Uttar Pradesh

Oct 2023 – July 2027

#### Bachelor of Technology in Computer Science Engineering (AI & ML)

- Pre-Final Year Engineering Student with a strong foundation in software development and problem-solving.
- Relevant Coursework: Data Structures, Algorithms, Web Development, Database Management Systems.

### St. Fidelis College (ICSE), Lucknow, Uttar Pradesh

2007 – 2022

#### Secondary and Intermediate Education

- Class X — 95.8%
- Class XII — 91.5%
